Air Liquide Healthcare Saves Time With Pharmacovigilance Management from SafetyEasy® Suite

OUR CUSTOMER

Air Liquide Healthcare is a world leader in medical gases, home healthcare services and specialty ingredients. With 16,500 employees, Air Liquide Healthcare supports 2 million chronic patients and provide medical gases and related services to 20,000 hospitals and new care facilities, as well as 140,000 healthcare professionals.

For more than a decade, Air Liquide Healthcare has relied on AB Cube's SafetyEasy® Suite and its scalable, automated efficiency to ensure effortless pharmacovigilance compliance across its global health activities.

THE SOLUTION

For Air Liquide Healthcare, SafetyEasy® delivers a best-in-class, single-platform PV safety database that reduces manual effort and is adapted to its unique organizational needs.

Pre-validated and compliant with GAMP5 and FDA CFR21 part 11 standards, SafetyEasy® Suite's up-to-date validation dossiers and automatic system updates keep the PV function on track with the latest drug safety regulations.

Air Liquide Healthcare's safety team gains from intelligent automation features that streamline data entry and speed reporting processes - from narrative template automation and reporter's comment templates to autolabelling and automatic one-click report submission via AB Cube's Gateway.

THE BENEFITS

Ease of use

Thanks to its intuitive user interface and clear user guide, SafetyEasy® Suite allows Air Liquide Healthcare's safety team to easily navigate the system and extract specific data as needed.

Continuous innovation

Air Liquide Healthcare gains immediate benefit from the latest system upgrades at no extra cost, and is kept up to speed on the newest functionality via AB Cube's customer webinars.

Support & training

Air Liquide Healthcare values the responsive support delivered by AB Cube's in-house experts, highlighting excellent communication and timely resolution of support tickets.
